EXPERIENCE

Junior Engineer

Vishwa Samudra Engineering Pvt. Ltd. *Oct 2024 - Present*

- Provide technical support for hardware, software, and network-related issues across departments.
- Install, configure, and troubleshoot desktops, laptops, printers, and enterprise applications.
- Support ERP systems and internal tools to ensure uninterrupted business operations.
- Resolve user issues promptly to minimize downtime and improve productivity.
- Collaborated with technical support teams to diagnose and resolve BIOS-related issues on laptops and desktops, ensuring minimal downtime.
- Maintain IT asset inventory and system documentation.
- Assist in system upgrades, deployments, and user acceptance testing (UAT).
- Ensure data security practices and compliance with company IT policies.
- Monitored project progress and performance through the Command Control Center, ensuring centralized oversight.
- Managed security-related tasks using the Beatz application, enhancing operational safety.
- Processed advance payments and verified purchase orders and vendor payments within the ERP system.
- Analyzed existing systems and processes to identify areas of improvement.
- Collaborated with stakeholders across departments to define requirements for new projects.
- Gathered feedback from end users regarding usability issues related to applications or systems.
- Provided technical support during user acceptance testing cycles.
- Created dashboards in Looker Studio.
- Coordinated with on-ground teams, vendors, and department heads to streamline communication and ensure smooth execution of daily operations.
- Participated in testing and feedback cycles for CCC tools and systems, helping refine functionality and usability.

- Coordinated with multiple vendors to procure CCTV cameras, ensuring products met technical specifications, compliance standards, and budget constraints.
- Facilitated RFQ (Request for Quotation) processes, service level agreements, and product quality.
- Initiated and managed the end-to-end procurement cycle by creating Purchase Requisitions (PR) based on stakeholder requirements and project needs.
- Converted approved PRs into Purchase Orders (PO) using ERP systems, ensuring timely approvals and order placements.

Associate Developer

Digital GYB Technologies *Jan 2022 - Jun 2023*

- Provided front-end website development using WordPress (Elementor).
- Employed HTML and other technology to make line-code repairs and optimize corporate presence.
- Worked mostly with different plugins suitable for WordPress.
- Developed and created new mobile-friendly websites, transitioning legacy presentations to simultaneous easy-to-use versions.
- Resolved website responsive issues and compatibility with all devices.
- Optimized the website to be SEO friendly.
- Developed websites for different industries such as Hospitality, Real Estate, Medical, Interior Designing, Educational Institutions, and many other Software solutions.
- Performed root cause analysis for problems and provided/proposed solutions.
- Determined and resolved problems within the expected time frame.
- Distributed and assigned day-to-day work and responsibilities as per daily reports.
- Inserted Meta Title and Meta Description to the website as per keyword research report.
- Built websites to be attractive and informative in a short time.
- Identified and recommended improvements to existing processes.
- Collected prerequisites and client requirements for building a website.
